DATE MAILED: 06/30/2004

Please find below and/or attached an Office communication concerning this application or proceeding.

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.  If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.  If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.  Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).  Status  1) Responsive to communication(s) filed on 18 May 2004.  2a) This action is FINAL.  2b) This action is non-final.  3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.

#### **DETAILED ACTION**

### Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, line 16, "said locating bar" lacks proper antecedent basis. It appears applicant means "said locking bar". Further, on claim 1, lines 11 and 12, applicant inferentially claims the locking holes provided at the rails. Such recitation makes the claim unclear as to whether applicant means to claim the locking holes in combination with the table with rails and sliding keyboard carrier. Examiner has treated claim 1 as being not claiming the locking holes in combination therewith. Regarding claim 4, line 2, "said carrier frame base" should be corrected to "said carrier base frame", and on lines 2-3, "said support said keyboard panel" makes no sense. Claim 7, line 4, it is not clear whether the recitation "fixed thereto with screws" are referring to the same female screws recited in line 3.

## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

<sup>(</sup>b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Application/Control Number: 10/621,998

Art Unit: 3632

Claims 1 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Rechberg (US patent no. 4,749,242). Rechberg discloses a sliding carrier (3) capable of supporting a keyboard mounted in a computer table (top of cabinet inherently capable of supporting computer) below a table top frame member and movable along two parallel rails (10) in the computer table below the table top frame member, the sliding keyboard carrier comprising: a base frame (20, 40, 71) movable along the rails, the base frame having mounted with a keyboard panel (drawer 3) for holding a computer keyboard; a positioning structure (73, 74) mounted on the base frame and adapted to lock the base frame, the positioning structure comprising a vertically movable locking bar (73) for engaging the rails to lock the base frame after the base frame has been moved along the rails to a predetermined position; and a handle frame (76) fastened pivotally (at 72) with the base frame for operation by the user to release the locating bar; and wherein the positioning structure comprises a vertical spring support (77) supporting the locking bar on the base frame.

Applicant's recitation of the claimed sliding carrier with locking bar intended for use with a keyboard or with a rail having locking holes are not accorded with patentable weight. Moreover, Rechberg's drawer inherently is capable of supporting a keyboard and Rechberg's locking bar (73) is capable of engaging locking holes in the rail. A recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of

Art Unit: 3632

making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963).

Claims 2-9 and 11-16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

#### **Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hobbs and Stijns show locking bar engaging holes in rail.

Haggund et al, VanderHeide et al, Hagstrom et al, McGrath, and Dubarko shows sliding tray. Postic shows a base frame for a tray.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Korie H. Chan whose telephone number is 703-305-8079. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leslie Braun can be reached on 703-308-2156. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
